

Zouhair Rouika

Frontend Engineer

Casablanca, Morocco · rouikazouhair@gmail.com · rzouhair.com

SUMMARY

Frontend Engineer with nearly 7 years building production web applications across SaaS, gaming, and edtech. Specialized in **Vue 3 / Nuxt 3**, **TypeScript**, and **Tailwind CSS**, with backend contributions in **Laravel** and **Node.js**. Track record of shipping features used by millions, including SDKs, admin platforms, and AI-driven products.

EXPERIENCE

Full-Stack Engineer (FE Heavy) · BitterBrains

May 2024 — Present

Remote

- Own **Certificates.dev** platform development: implemented CMS-driven architecture and customizable theming across multiple technologies and certifications.
- Contribute to product work across **Frontendnation**, **Vueschool.io**, and other BitterBrains projects.
- Extend backend in **Laravel**: certificate editor and generator, admin-panel-driven frontend customization, promotions import to simplify pricing setup.
- **Stack**: Vue 3 (Composition API), Nuxt, Pinia, Laravel, Tailwind CSS.

Frontend Engineer · Gfinity PLC — Athlos

Nov 2021 — Apr 2024

Remote

- Built mobile-gaming competition products used by millions across **E-Premier League**, **Supercell's Clash Royale**, **Clash of Clans**, and **Brawl Stars**.
- **Universal Admin Panel**: led migration from Vue 2 to Vue 3 and built back-office controlling all tournament hubs and mobile game integrations.
- **In-App Experience**: shipped fully customizable mobile-game integration with full UI/theme customization, communicating with Athlos backend.
- **Athlos SDK & Setup Utility**: contributed to a **TypeScript** SDK and setup tooling enabling game developers to integrate Athlos backend correctly.
- Strengthened remote-async collaboration and agile delivery practices.

Co-founder & Full-Stack Engineer · Majorit.ma

Jul 2021 — Present

Casablanca, Morocco

- Built AI-powered exam-prep platform for medical students; led both frontend and backend.
- Frontend: **Nuxt 3** (Blog), **Vue 3** (App), Pinia, Tailwind CSS, Vue Query, Cropper.js, Socket.io.
- Backend: **Node.js**, Express, **GraphQL**, Typesense, **LangChain**, Python.
- Infra: GitLab CI, Cloudflare Pages, AWS EC2/S3, Google Cloud Services.
- Shipped: paper-to-digital exam conversion, advanced topic filtering, generative-AI explanations with citations, AI-driven MCQ grouping by module/submodule, AI chatbot over course material, custom subscription system, community discussion, performance dashboards.

Frontend Developer · Kaokeb

Jul 2019 — Nov 2021

Casablanca, Morocco · Hybrid
